REPORT OF POLICE DEPARTMENT

To the Citizens of North Hampton:

We wish to thank Mr. Walter Barker of Little Boar's Head for the equipment given to this department. Mr. Barker has given us 2 two-way radios, a stretcher, blankets and a first aid kit. This has made an ambulance and stretcher service, available for emergencies only, twenty-four hours a day.

As our population increases our Police requirements increase and the Citizens have more complaints. We need more manpower to give the public the protection to which they are entitled.

Again beach parking was our biggest trouble during the weekends in the summer months. As the traveling public has taken over the beach, there should be an area set aside for use as a parking lot for our townspeople so they can use and enjoy the beach and not have to travel to some other town.

I would like to thank all of the people who have helped with the projects for the children that this department has undertaken. Without your help they would not have been possible.

ARTHUR E. LEONARD,

Chief of Police

REPORT OF WATER COMMITTEE

The Town of North Hampton, N. H., at its Annual Town Meeting, March 13, 1956, voted to extend for fire protection purposes, the existing water main of the Hampton Water Works Company, westerly on Atlantic Avenue for a total distance of approximately 0.6 miles, (about 2,900 ft.) to terminate at the Congregational Christian Church. The cost of the extension not to exceed $12,000. Of this amount $6,000 was to be raised by tax levy and the balance ($6,000) to be borrowed by note or bond issue.

The committee held an organization meeting and the matter was taken up with the Hampton Water Works Company and they submitted to us a contract agreement to install the work at a cost of $17,484., less the supported revenue from 12 Domestic Customers at $25.00 annual revenue each for 7 years and 4 hydrants at $90. yearly revenue for 9.4 years, making the cost $12,000. We felt that the construction cost was high and also that the Domestic Customer revenue was not high enough. The matter was taken up with the Public Utilities Commission at a hearing and the decision rendered by them was to the effect that the Hampton Water Works Company should figure the Domestic Customer revenue at $33.00 per year and at the completion of the job should make an audit of the actual cost of the job and give us the benefit of any saving.

The contract was executed on May 23, 1956 and we deposited with the Water Company $12,000. The work was started June 27, 1956 and the water turned on August 2, 1956 (27 days of actual work).

In December, 1956, we received from the Hampton Water Works Company a refund of $3,833.31 (on the

$12,000 deposit) and after paying the outstanding bills, the Selectmen had a balance of $3,658.31 to apply on the $6,000 note at the bank, so that the balance of the note now outstanding amounts to $2,341.69.

Respectfully submitted,

by the Water Committee.

A. J. Glossa, chairman, Martin W. Whenal, George A. Craig, Paul W. Hobbs, Lewis Haven, Maurice Kierstead Carroll Blackden.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the
North Hampton School District:

It is a pleasure to submit my first annual report as superintendent of schools. I was conscious that I was assuming a heavy responsibility when I accepted the superintendency of Union No. 21. This school union is one of the largest and most vigorous school organizations in New England. It was apparent to me that if one were to meet the demands of administrative duties in this union, it would be necessary that full cooperation be given by all school personnel and by the citizens of the school districts. I am happy to be able to say that since I took office on December 1, 1956 such has been the case.

My predecessor, Roy W. Gillmore, during October and November gave me the full benefit of his twenty-six years of experience in this Union. Your School Board has offered me unstinted assistance and support. I trust that the people of the district appreciate the sacrifices of time and energy made by the members of the Board.

The Union Office staff has worked and continues to work beyond regular requirements, to meet the needs of the school. Miss Edith Hammond, my Executive Assistant, renders invaluable help in freeing me from many administrative problems. Mr. Sherman A. Lovering, the Helping Teacher, continues to carry an increasing responsibility for efficiency in instruction.

Mr. Clarence Green, the new principal, has proven to be an able and conscientious administrator and teacher. Because our school is overcrowded, greater than ordin-

ary difficulties exist in operating the program. Mr. Green has succeeded well in planning a program for pupils and teachers which surmounts these difficulties.

Our teachers in North Hampton are, on the whole, a loyal and conscientious group. In general, I feel satisfied that the children are receiving sound and thorough instruction. We hope to make improvements with regard to salary and working conditions which will enable us to retain our good teachers and to attract and hold excellent new teachers as we need replacements. The classroom teacher has always been and will always be the key figure in the educational process. In the long run all that the rest of us do is intended to make the teachers' work more successful.

I feel it is unnecessary to repeat here the detailed analysis of projected enrollments and the need for additional classrooms which was presented to you at the time of the Special District Meeting of November 30, 1956. The brochure then presented to all inhabitants was convincing to the extent that the meeting voted almost unanimously to provide for the construction of an addition to the present building. As you know, plans have been prepared and steps are being taken to let a contract. It is intended that the addition will be ready for use when school opens next September.

A reservation of funds in the amount of $52,920.00 has been granted by Federal agencies to assist the district in this construction. We received the first award in the current year that was granted in New Hampshire. I would like to express here my appreciation of the diligence and thoroughness shown by the members of the Long Range Building Committee in preparing the information necessary for our Federal application.

Our hot lunch program has continued to operate satisfactorily in terms of meals served to children. Mrs.

Dickerman and her helpers are offering a menu of superior quality. It will not be possible, however, to maintain the low price of 20c per meal. I know of no other program operating at this low figure; it is essential now that we raise the price to 25c. We should all recognize the assistance that has been provided by many faithful mothers who have helped in this program.

We need to make new provisions for nursing services in the coming year. The School Nurse is now attempting to serve five school districts which have a pupil enrollment of almost 1,300. This is an impossible load and much above state standards which call for a pupil load between 500 and 700 for a school nurse. It has now been arranged for North Hampton and Rye to use her services in those school districts. Seabrook, Hampton Falls, and South Hampton will employ another nurse.

A special Warrant Article will be offered to provide funds for the establishment of a special class for children with learning handicaps. This class will be located in our elementary school since space can be provided there at least for next year and since this is a location central with respect to the seven school districts of the union. Each district would share in the support of this class and would be entitled to send a number of pupils proportionate to its share.

In all districts we have pupils who need the special curriculum and special instruction that can be furnished in such classes. More than one such class is needed in a union of this size. I look forward to recommending a second class for the following year so that children can be served in two locations. It seems wise to begin with one class and, after a year's experience, to expand to two classes later.

It must be clearly understood that this recommendation stands as a local decision. We have agreed to participate in a state study of the best ways of organizing such classes within school unions. This study will deal largely with identification of pupils needing the instruction and with organization and administration of such a class. Funds for this study will be provided by the Harriet M. Spaulding Charity Fund. With the assistance of Mr. Lovering I will supervise the personnel conducting the study.

The important point is that the class will not be established for purposes of the state study. Children need such classes and this instruction is routinely provided in other school systems. Whether or not the state study existed I would propose that such a class or classes be a part of our school system.

You are all familiar with the study that has been made concerning the problem of providing suitable high school facilities for our children in that age group. The first step toward organizing a cooperative school district for secondary education was taken in the special district meetings held on January 18, 1957.

If North Hampton joins with her neighbors in Hampton, Hampton Falls, and Seabrook in forming such a district it would appear that we can afford our young people a good high school training. Existing uncertainties that parents now have regarding high school education for their children will be ended. It may take a little time to get used to the idea of belonging to a new corporate body for educational purposes; the experience is not unique however; such school districts now are operating in the state and many more may be expected to be formed. No more equitable and suitable solution appears to be available.

In conclusion, may I again extend to the School Board and the citizens of the District my appreciation for the kind welcome you have given me and for your generous cooperation. During the next year it is my hope to be able to extend my services to the district.

Respectfully submitted,

EDWARD C. MANNING,

Superintendent

REPORT OF SCHOOL NURSE

As School Nurse, I have worked in the North Hampton School one day each school week.

All children were weighed, measured, and given general inspection which consists of the following: checking hair, tonsils, teeth, skin and posture.

Vision testing is done annually on every pupil. The Snellen "E" chart is used on the younger children and the telebinocular eye machine on the older ones.

Last year five were found to have defective vision, and four of these have been given corrective measures.

The Maico Audiometer hearing testing machine, is also being used at the school.

Dr. Charles Bailey, school physician, gave a thorough physical examination to each pupil in both first and third grades, also those in the fifth and seventh grades.

A total of 239 children were given the Salk vaccine at the spring and fall polio clinics.

Many thanks to all who assisted me in the preparation of these clinics.

The polio program is one of great importance, and also one which is very time consuming.

Classroom visits are made weekly. Home contacts are made as necessary and a total of 121 were made last year.

Respectfully submitted,

JESSIE MANSOURIAN, R.N.
